

CD-ROM APPENDIX:

Regarding the CD-ROM Appendix filed with the application, Applicant states as follows:

The machine format for the compact discs is IBM-PC.

The operating system compatibility for the compact discs is IBM-PC.

The disc contains a single file, named "code.asm". Its size is 206,911 bytes. Its date of creation is Sunday, February 4, 2001.

The following special information may be necessary to identify, maintain, and interpret the information on the compact disc: The file "code.asm" is an assembly code listing for software written for a Palm Vx handheld computer. That computer uses the Palm OS operating system and runs a Dragonball EZ processor by Motorola.

REMARKS:

The Examiner determined that 35 U.S.C. § 121 requires restriction to either Claim 1 alone or to Claims 2-5.

Claim 1 has been cancelled in response to that determination.

Applicant states his intention to file a divisional patent application that will claim the claim cancelled by this Amendment.

Accordingly, applicant submits that this application is now in full condition for allowance, which action applicant respectfully solicits.
